

## **Call for Papers/Presentations** **An Academic Forum on the IAIS Insurance Capital Standard**

**December 9 (Friday), 2016**  
**School of Risk Management, St. John's University**  
**New York City**

The Center for the Study of Insurance Regulation (CSIR) of St. John's University's School of Risk Management, in collaboration with the International Association of Insurance Supervisors (IAIS), hosts a one-day academic forum to discuss the IAIS Risk-based Global Insurance Capital Standard (ICS) and would like to invite academicians for presentation of their research findings. Once adopted, the ICS will apply to internationally active insurance groups (IAIGs) as part of the IAIS' common framework (ComFrame) for the supervision of IAIGs.

This forum is open to invited speakers and guests only. Interested professors and industry researchers may refer to ICS documents at <http://www.iaisweb.org/page/supervisory-material/insurance-capital-standard> and submit a letter of intent to present research findings related to the ICS.

- The letter of intent must be submitted by September 9, 2016.
- The organizers will notify successful applicants by September 30, 2016.
- Presentation based on a (working) paper is recommended but not required.

Submissions and inquiries should be directed to Prof. W. Jean Kwon at [KwonW@stjohns.edu](mailto:KwonW@stjohns.edu).

Priority will be given to research focused on the questions contained in the ICS consultation document, particularly those related to calibration, valuation issues (eg discount options and reference methods), specification of margins, risk aggregation/diversification and technical aspects of the specifications for capital requirements and qualifying capital resources.

**About the IAIS.** Established in 1994, [the International Association of Insurance Supervisors](http://www.iaisweb.org) is a voluntary membership organization of insurance supervisors and regulators from more than 200 jurisdictions in nearly than 140 countries. It is the international standard setting body responsible for developing and assisting in the implementation of principles, standards and other supporting material for the supervision of the insurance sector. The IAIS also provides a forum for Members to share their experiences and understanding of insurance supervision and insurance markets. In recognition of its collective expertise, the IAIS is routinely called upon by the G20 leaders and other international standard setting bodies.

**About the School of Risk Management and the CSIR.** Located in Manhattan, the School of Risk Management, Insurance and Actuarial Science (formerly, The College of Insurance) is one of the oldest and most distinguished insurance education and research institutions in the world, housing the Kathryn and Shelby Cullom Davis Library, one of the world's largest collections of risk and insurance materials. Its [Center for the Study of Insurance Regulation](http://www.stjohns.edu/risk), established in 2013, offers a forum for candid discourse on the subject of insurance regulation among business leaders, government officials, educators and others involved in developing and implementing public policy affecting the business of insurance in the U.S. and globally.
